

Bloomelectronics™

The Bloom Electrons® service allows you to lock in your electricity costs for 15 years, delivering predictable costs and significant savings.

Bloom Energy Servers® are deployed at your site to produce clean, reliable, affordable power 24/7/365, just for you. Bloom manages and maintains the systems; you only pay for the electricity that is produced.

BENEFITS

- **Save money on your electricity**
 - Lower your costs immediately
 - Maintain predictable costs over a 15-year period
- **Cut your carbon footprint**
 - Up to 50% reduction in CO₂ emissions
 - No NOx, SOx, or other harmful pollutants
- **Reduce your energy risk**
 - Simply replace your utility expense with the Bloom Electrons service
 - No capital risk – buy electricity, not equipment
 - No technology risk – pay only for what you use
 - Uninterruptible power option for critical loads
 - Bloom Energy is responsible for all service and maintenance
 - Guaranteed system efficiency

Bloom Electrons features	
Structure	Billing for kWh generated
Rate	Generation rate with fixed escalator
Term	15 years
Natural Gas	Pre-packaged options with gas providers
Warranties	Guaranteed system efficiency

About Bloom Energy®

Bloom Energy is a provider of breakthrough solid oxide fuel cell technology generating clean, highly-efficient onsite power from multiple fuel sources. Founded in 2001 with a mission to make clean, reliable energy affordable for everyone in the world, Bloom Energy Servers are currently producing power for numerous Fortune 500 companies including Google, Walmart, AT&T, eBay, Staples, The Coca-Cola Company, as well as notable non-profit organizations such as Caltech and Kaiser Permanente. The company is headquartered in Sunnyvale, CA. For more information, visit www.Bloomenergy.com.
